

Physician Guide

Spring/Summer 2009

Dear Reader,

I am so pleased that you are using the Parkland Health Center Physician Guide. This guide is designed to make it easy for you to have information about our doctors and how to reach them. While the guide does not include every doctor on our staff such as pathologists and emergency physicians, it does include those with whom you may want to make an appointment.

Parkland Health Center is very interested in your family's health. If you are looking for a physician – from a local family practice physician to a visiting specialist from BJC HealthCare – this guide can be very helpful to you. If you would like some assistance in choosing and making an appointment with a new physician, please call the Parkland Physician Finder Service or click on Physician Finder on our web site. Contact information can be found on the back cover of this guide.

Cordially,

*Brett Dickinson, MD
Chief of Staff*
